# remember NETWORK

## An accessible and friendly new concept in *celebrating lives*

When faced with the loss of a loved one residing in a senior care facility or retirement home, friends and caregivers often miss the opportunity to pay their final respects because attending the remembrance service entails leaving the facility and traveling to a funeral home. This is particularly challenging for friends with limited mobility or caregivers unable to leave the care facility because of work.

Remember Network creates flexible and inclusive on-site remembrance services that are both meaningful and free of stress for family and friends, as well as caregivers. With Remember Network's services everyone involved benefits:

- Caregivers are able to pay their respects and gain closure without the need to be away from their charges.

- Friends, particularly those with limited mobility, will be able to attend the service without having to travel off site.
- Family will be gratified that more of their loved one's friends are able to attend the remembrance service. What's more, because Remember Network's licensed Funeral Directors provide what is essentially a mobile service, our services cost substantially less than those of funeral homes that need to maintain buildings and a fleet of vehicles.
- The facility wherein the services are held benefits because their caregivers' and residents' lives are enriched through participation in one of life's most important rituals. Remember Network also returns a portion of revenue generated to the seniors' care facility to help fund legacy workshops and grief-related initiatives, further enriching this community.

### Win a Digital Mini-Camcorder!

What better way to record memories than with a digital camcorder? Please take a few moments to complete our on-line survey and we will enter your email address in our draw. Visit [www.remembernetwork.ca/survey](http://www.remembernetwork.ca/survey) and complete the short survey to be entered. Draw will be held December 29, 2009.
